Design Decision

Una volta scelto il template da adottare , selezionandolo da un primo range di vari template, il team ha voluto apportargli modifiche estetiche al fine di adattare il tutto al dominio di appartenenza, ovvero un ristorante di etnia orientale.

La prima scelta è stata quella di eliminare il colore iniziale dominante, il giallo, sostituendolo con un colore simbolo dell'oriente e del dominio orientale, ovvero il rosso bordeaux tendente quasi al nero. Il motivo della scelta è stato frutto di una ricerca web che ci ha documentato sul fatto che il rosso bordeaux in oriente è colore predominante di ogni attività di ristoro. Tale fatto si può constatare anche in Italia.

Un'altra scelta riguardante il design, seppur minore, è stata quella di adattare il template del BackOffice di beContent in modo da avvicinarsi di più al nostro dominio, cambiando nomi e loghi pertinenti.

Sperando di aver fatto il miglior adattamento possibile al nostro dominio, le alleghiamo in questa documentazione i file .php (e nel caso .html) che il team ha sviluppato da zero con la relativa sezione (screenshot) di riferimento.

Gestione Utenza & Sessioni

Vieni a trovarci presso **Via Vetoio** (Zona Università polo Coppito) di fronte l'Ospedale San Salvatore.

Vieni a provare i nostri ingredienti selezionati dal mondo!

ACCEDI ALLA TUA AREA RISERVATA

Gestione utenza gestita tramite quattro file .php principali: utenza (che permette il login), register (che permette la registrazione nel caso in cui l'utente non lo fosse) e prenotazioni (che non è altro che la pagina php visualizzata nel caso in cui l'utente sia in sessione). Infine vi è il file logout2 che tramite un semplice session_destroy fa effettuare il logout all'utente troncando la sessione corrente.

A login form with a light gray background. It features two input fields: 'Email' and 'Password', both with light gray borders and placeholder text. Below the 'Password' field is a dark red button with the text 'ACCEDI' in white, bold, uppercase letters. Underneath the button are two links: 'Registrati' and 'Torna alla Home', both in a dark gray font.

utenza.php

```
<?php

session_start();
include_once 'dbconnect.php';

if(isset($_SESSION['username'])!="")
{
    header("Location: prenotazione.php");
}

if(isset($_POST['btn-login']))
